Some people talk about a brand and refer to slogans and logos. But, it's so much more. A brand is a person’s feeling toward a product, service or organization. As such, the Atlantic Coast Conference (ACC) brand is a reflection of everything we do and say, everything we print and broadcast.

As a representative of the conference your role is to protect the value of our brand and honor the foundation upon which it is built by establishing and communicating a clear and compelling brand message. This will help ensure all stakeholders continue to associate the ACC name with excellence and integrity.

This guide exists to assist you by directing both the visual and verbal articulation of our brand. It is essential that the ACC Brand Standards Guide be adhered to with precise detail and all future brand development follow the rules set forth herein. Correct application is crucial to helping the conference carve out a unique, relevant and ownable position at the pinnacle of collegiate sports.

BRAND POSITIONING

ACC
MISSION STATEMENT

The Atlantic Coast Conference, through its member institutions, seeks to maximize the educational and athletic opportunities of its student-athletes, while enriching their quality of life. It strives to do so by affording individuals equitable opportunity to pursue academic excellence and compete at the highest level of intercollegiate athletics competition in a broad spectrum of sports and championships.

The Conference will provide leadership in attaining these goals, by promoting diversity and mutual trust among its member institutions, in a spirit of fairness for all. It strongly adheres to the principles of integrity and sportsmanship, and supports the total development of the student-athlete and each member institution’s athletics staff, with the intent of producing enlightened leadership for tomorrow.

CLEAR SPACE

Adherence to the clear space standards provides for a consistent look to the ACC logo. It protects the proprietary nature of it, and is used to defend against unauthorized use.

To the right are specifications to determine the minimum distance between the ACC logo and other visual elements.

When determining the appropriate amount of clear space, the height of the cross-stroke of the ‘C’ should be used to create an imaginary square.

The imaginary square should serve as a buffer on all sides of the identity upon which no visual element intrudes. This includes the negative space in the top left corner created by the ‘A’.
MINIMUM SIZE REQUIREMENTS

The minimum size recommended for the ACC logo is shown to the right. It should not be reduced smaller than 1" (300 pixels) in width.

All reproduction of the logo must remain legible regardless of size, usage or production.
IDENTITY MISUSAGE

The ACC logo should **NEVER** appear without the underline.

The ACC logo should **NEVER** appear angled within a composition.

The ACC logo should **NEVER** be stretched or squished.

Elements should **NEVER** invade the approved ACC clear space.

The colors of the ACC primary logo should **NEVER** be inverted.

The ACC logo should **NEVER** be skewed.

Other than field application, the ACC logo should **NEVER** incorporate an outline stroke.

The ACC logo should **NEVER** incorporate a drop shadow. If color is an issue, use the appropriate version within the logo suite.

The ACC logo should **NEVER** incorporate the use of gradients within it.
APPLYING TO IMAGERY

When applying the ACC logo to imagery, it is important that there is an ample amount of negative space surrounding the logo. This is done to prevent other elements from interfering with it and to help maintain the integrity of the brand.

The appropriate application of this is shown above.
APPLYING TO IMAGERY

Above are unacceptable applications of the ACC logo on photography.

To the right are the primary font treatments for the ACC. The Primary Headline Font is RBNo2 (Light and Bold). This should be used in ALL CAPS to introduce all ACC brand materials.

In addition to the headline font, the ACC type system also includes Forgotten Futurist (Regular) which should be used for all body copy. Forgotten Futurist (Bold) may then be used in addition for call-outs when featuring stats, quotes, infographics, etc.

For web materials where these primary brand fonts are unavailable, Verdana (Regular) - a web safe font, should be used as a substitute.

IN VENUE / FACILITY BRANDING  Mandatory Requirements

The following section of the ACC Brand Standards Guide serves as a tool to aid member institutions with the co-branding of all ACC facilities and competition surfaces. Each institution is permitted to utilize the ACC logo or their School Specific logo as outlined herein.

For fields and courts with a painted application of the logo, a conference-issued stencil is required to ensure consistent use of the logo.

The minimum standard for ACC co-branding is to be visible in three places within a facility and/or playing surface. The following pages provide recommended guidelines for playing surface application.

Please ensure that any ACC co-branding is approved by the conference office prior to installation/application.
The recommended on-field representation of the ACC logo is pictured to the right. (Shown using Florida State as an example).

For this specific application, an 'outlined' version of the logo is used to contrast the green field color. In this situation, the white outline allows the school colors to remain prominent against a background that could otherwise clash with or diminish the logo.

For all fields with a painted application of the logo, a conference-issued stencil is required to ensure consistent use of the logo.

**NOTE:** Please contact the ACC for the approved 'outlined' version of the ACC logo whenever applying to athletic fields.
The ACC logo stencil should be used to apply the logo between the 20 and 30 yard line on both sides of the institution’s football field.

The stencil, which is 29' x 8.5', should be centered in-between these 2 yard markers. (These dimensions include a 4" border to outline the logo). Both ACC logos should face the appropriate TV angle of the respective stadium.

NOTE: The ‘outlined’ version of the logo may be used here to keep from clashing with the green field.

NOTE: The yard line must be visible when running through the logo by “ghosting” the line to be compliant with NCAA Playing Rules.

NOTE: The ACC will provide designs for application across on-field goalpost pads.
The ACC logo should be painted in two locations on each institution's basketball court in the institution's colors. Both identities should be centered inside of the key facing center court.

Application is presented above at the recommended width of 10 feet, 7.5 inches.
It is suggested but not required that the ACC logo should be painted on both sides of the soccer pitch. Both ACC logos should face the appropriate TV angle of the respective stadium. Shown here in Clemson colors as an example.

**NOTE:** The ‘outlined’ version of the logo may be used here to keep from clashing with the green field.
It is suggested but not required that the ACC logo should be painted on both sides of the outside perimeter of the volleyball court. Shown here in Georgia Tech colors as an example.
The ACC logo should appear in at least one location on the wall behind home plate (Fig 1) and in at least one location on the outfield wall (Fig 2). It is also encouraged that the ACC logo be placed somewhere on field. Seen to the right, facing each respective dugout.

NOTE: The ‘outlined’ version of the logo may be used here to keep from clashing with the green field.
