Partner Brand Guidelines

How we create music moments with our friends.
Brand role

Spotify is the right music for every moment.

This is our brand role. It’s a simple statement that helps to guide everything we do, including how we look and how we talk to the world.

Spotify is not just a utility that allows you to access millions of songs. It’s about having the right music at your fingertips. Whatever mood you’re in, wherever you find yourself, the perfect music is always there with you.

Whether you provide devices, accessories, networks or apps, let’s join forces and give people the right music for every moment.
Primary Logotype

The first way we signify the presence of Spotify is with our Primary Logotype. It’s the clearest way we can identify our company visually. We should be signing off all of our communications with the logotype; our partner messages must be identified as coming from us, and you!

Clearspace
In order to preserve the integrity of the Primary Logotype, it is important that no other logos, type or other graphic elements infringe on its space. The minimum clearspace around the logotype is equivalent to 1/3 of the width of the logotype.

Smallest size use
The minimum size the Primary Logotype may be used for print applications is .4” (10mm) wide. Include the registration mark for this measurement.

For digital applications, the minimum size is 45 pixels wide.

Logotype artwork
Do not attempt to redraw or recreate any element of the logotype. Use the approved digital files of the artwork.

Minimum size
Minimum print size 0.4 inch (10 mm) wide.
Minimum digital size 45 pixels wide.
Horizontal Logotype

If it’s impossible to use the Primary Logotype for some reason, you have the option of using the Horizontal logotype. It’s still a good way of showing off the Spotify brand, so don’t you worry!

Clearspace
In order to preserve the integrity of the Primary Logotype, it is important that no other logos, type or other graphic elements infringe on its space. The minimum clearspace to the around the logotype is equivalent to 1/2 of the height of the logotype.

Smallest size use
The minimum size the Primary Logotype may be used for print applications is .6” (15mm) wide. Include the registration mark for this measurement.

For digital applications, the minimum size is 80 pixels wide.

Logotype artwork
Do not attempt to redraw or recreate any element of the logotype. Use the approved digital files of the artwork.
Monochromatic Logotype

The monochromatic logotype should only be used when there are not enough colors to properly reproduce the Primary Logotype.

Clearspace
The minimum clearspace around the Primary Logotype is equivalent to 1/3 of the width of the logotype.

The minimum clearspace around the Horizontal Logotype is equivalent to 1/2 of the height of the logotype.

Smallest size use
Primary Logotype should never be smaller than .4” (10mm) wide. Include the registration mark for this measurement.

For digital applications, the Primary Logotypes’ minimum size is 45 pixels wide.

Horizontal Logotype should never be smaller than .6” (15mm) wide. Include the registration mark for this measurement.

For digital applications, the Primary Logotypes’ minimum size is 80 pixels wide.

Logotype artwork
Do not attempt to redraw or recreate any element of the logotype. Use the approved digital files of the artwork.
Partner logos

Size relationship—Primary Logotype
When partner logos are longer and more text-based, we prefer them to be at the same height as the logotype.

For symbol-based logos, we prefer them to be 2X the height of the logotype.

Size relationship—Alternate Logotype
When partner logos are longer and more text-based, we prefer them to be at between 30 and 50% the height of the stroke.

For symbol-based logos, we prefer them to be the same height as the logotype.

Alignment
We prefer our partner’s logos to always be center aligned with either the Preferred or Alternate logotype.

Always consult the partner’s company guidelines for logo usage, minimum size, etc.
To make sure our logotype appears as consistently as possible throughout our communications, we've identified a few ways we don't want our logotype to appear.

**Don't separate the icon from the word mark. They should always be treated as a whole.**

**Avoid stylizing the logotype with outlines, glows, or any other techniques.**

**Don't use our logo against a green background.**

**Don't skew, rotate or stretch the logotype.**

**Respect the distance guidelines so that each logo has enough breathing room.**

**Only use specified colours to represent the logotype.**
### Colour

Spotify Green is our hero colour. We use Spotify Green to clearly signify the presence of Spotify in people’s lives, and to help our users immediately identify us. Use this colour generously for our type, charts and as a background.

We have a select set of supporting neutral colours which help Spotify Green to sing. In the majority of uses, we want strong contrast between all of the colours used.

Solid colours work best in printed applications and for text.

The gradients are best applied in digital applications like our website and email.

With Spotify, your music is everywhere. Working out, partying or relaxing, the right music is always at your fingertips.

There are millions of songs on Spotify – from old favourites to the latest hits. Just choose the music you love, or let Spotify surprise you.

This is an alternative paragraph to use if you want to get across catalogue breadth.

There are millions of songs on Spotify – from Beyoncé to Bach, and Metallica to Mumford & Sons. Just choose the music you love, or let Spotify surprise you.

Checklist

To make sure your communications are as successful as possible, please refer to the following checklist.

For more details, check out our full Brand Identity Guidelines.

Have you used Spotify Green?
We hope so. Check that your green is the correct green (it should be PMS 376).

Does our primary or horizontal logotype have enough clearspace?
Always make sure our logo has enough room to breathe. Please check the guidelines on previous pages.

Is our logotype placed on a clean background?
The White Primary Logotype likes a dark background, and the Black Primary Logotype is very fond of a light background. This is to allow for sufficient contrast.

Is our logotype used more than once in the same space?
It shouldn't be.
